

creative textile solutions

A close-up photograph of the WENTEX Eurotrack system. It shows a series of black plastic hangers with rollers, mounted on a black track. The hangers are arranged in a row, and the rollers are visible. The background is a blurred industrial setting with metal structures.

**WENTEX® Eurotrack**

## WENTEX® Eurotrack

WENTEX® Eurotrack is a solid track system that can be easily installed for moving textiles, for both temporary and permanent use. Using the connection strip, it is a fluently running track system and a variety of runners make it suitable for curtains as well as scenery. It can be used manually, but can also be operated using the optional rope system.

## WENTEX® Eurotrack | Parts

### Rail

#### Sizes Rail (length)

200 cm  
500 cm
